

Harlequin Cascade™

Harlequin Cascade is Harlequin's flagship professional vinyl performance floor, used by the world's leading dance companies and dance venues. As a hard-wearing homogeneous vinyl, it has a slip resistant smooth dance surface and is ideal for use in dance studios, theatres, concerts and as a high-quality base for lighting designers and photographers.

Installation: Harlequin Cascade is specified for permanent or temporary installation and is recommended for use in conjunction with a suitable Harlequin sprung floor. The joins are welded or taped to create a continuous performance surface.

Usage: Harlequin Cascade is a multi-purpose dance or stage floor, ideal for ballet, contemporary, modern and theatrical use. It is also the preferred vinyl dance floor for percussive dance (flamenco, Irish and tap).
